

One-page jury thesis | Jing-Zhang PASS City: complete the ordinary city first

01 / INTELLIGENCE IN COMMON · PASS CITY

Jing-Zhang PASS City: complete the ordinary city before AI enters

ONE-PAGE JURY THESIS · AN EXISTING PUBLIC SPINE · THREE URBAN PROTOTYPES · ONE PUBLIC RIGHT OF ADMISSION

NO PASS, NO AI

“The city works before, during and after AI.”

9 km / 9

corridor / subdistricts + towns

2.5 km / 16.8 ha

first phase already open

1 + 3 + 2

spine · prototypes · wings

12 / 90 d

passports · exit-ready pilot

OFFICIAL FACT > PERMANENT BASELINE > TIME-LIMITED PLUG-IN

Rough package geometry supports internal spatial tests only; not an official redline

CITY-MAKING IN SEQUENCE

PERMANENT | railway memory + walk/cycle + blue-green + universal access + staffed service

TIME-LIMITED | reversible kit + owner + stop + appeal + expiry

REMOVE AI: THE STREET MUST STILL WORK.

PUBLIC ACCEPTANCE PASSPORT

P PURPOSE VISIBLE purpose · data · expiry	A OWNER NAMED single A · human final	S STAFFED HANDOVER ordinary route · drill	S STOP-SAFE stop · appeal · restore
--	---	--	--

JING-ZHANG’S GLOBAL DISTINCTION: not the most AI devices, but the clearest public rights to admit, interrupt, and restore AI.

Three levels and conceptual land use: completeness is not approval

02 / INTELLIGENCE IN COMMON · PASS CITY

One base map: existing public value + reversible AI plug-ins

CONCEPT LAND USE · PERMANENT PUBLIC BASELINE · THREE STITCHES · REVERSIBLE SERVICE BANDS

TWO LAYERS — NEVER REVERSE THE ORDER

BASE 01	railway heritage reading	retain authentic remains + narrative continuity
BASE 02	three paths + green + cross-stitches	walk, cycle, run, access before devices
PLUG-IN 03	reversible PASS service band	never blocks clear route; remove if failed

THREE-OPTION DESIGN-TEAM TEST

	PUBLIC	SITE	RECOVERY	SYNERGY	TRANSFER
A TECHNOLOGY SHOWCASE	2	3	2	2	2
B THREE TEST YARDS	1	2	3	1	2
C PASS CITY	5	5	5	5	5

QUALITATIVE RANKING; NOT MEASURED PERFORMANCE OR OFFICIAL SCORING

FIVE STEPS FROM PROBLEM TO EXIT

One protocol, three urban prototypes: stoppable, withdrawable, supported

03 / INTELLIGENCE IN COMMON · PASS CITY

Three key areas: one PASS, three distinct urban grammars

INTELLIGENCE IN COMMON / v3.0

Public Acceptance Passport: four-condition interlock and red-line veto

06 / PUBLIC ACCEPTANCE PASSPORT · SIGNAL INTERLOCK

AI MAY NOT ENTER PUBLIC OPERATION UNTIL FOUR CONDITIONS CLOSE

Railway connection is translated into a contemporary civic-safety logic; an original metaphor, not real signalling engineering

4/4 + ALL RED LINES PASS

☐ ELIGIBLE ONLY FOR TIME-LIMITED PUBLIC ACCEPTANCE

OTHERWISE: BLOCK ACTIVATION AND RESTORE ORDINARY ROUTES, STAFFED SERVICE, AND PHYSICAL RECEIPTS

12

SCENARIO PASSPORTS

field performance = null

3

KEY-AREA PROTOTYPES

field performance = null

24

SYNTHETIC TEST PATHS

field performance = null

12

NEGATIVE PATHS BLOCKED

field performance = null

ZHONGZHIYUAN · SAFETY

S02–S04

Each scenario records a no-AI baseline, named human accountability, retention, audit frequency, success KPI, and stop condition.

AI ORIGIN · RIGHTS

S01 / S06 / S09

Each scenario records a no-AI baseline, named human accountability, retention, audit frequency, success KPI, and stop condition.

DAZHONGSI · EVERYDAY SERVICE

S08 / S11 / S12

Each scenario records a no-AI baseline, named human accountability, retention, audit frequency, success KPI, and stop condition.

Reversible public realm: complete the ordinary city before AI connects

07 / REVERSIBLE PUBLIC REALM KIT

SEVEN COMPONENTS: COMPLETE THE ORDINARY CITY BEFORE AI CONNECTS

All removable, repairable, and relocatable; never obstruct continuous step-free access or staffed service

C01

NOTICE SIGNAL PORCH

All four passport fields visible before acceptance.

C02

STAFFED DUAL DESK

Human, phone, and paper routes remain beside digital service.

C03

CLEAR STEP-FREE ROUTE

Movement, tactile guidance, and rest points stay clear.

C04

CO-ACCEPTANCE TABLE

Residents, disabled users, professionals, and operators co-test.

C05

PHYSICAL PAUSE SIGNAL

Visible, human-operable, and rehearsed monthly.

C06

APPEAL & ROLLBACK RECEIPT

Status, human contact, correction, and exit remain traceable.

C07

REVERSIBLE UTILITY RAIL

Power, sensing, display, and shade detach without lock-in.

PROTOTYPE SECTION TARGETS (NOT AN ENGINEERING SECTION)

Dimensions are self-imposed concept targets only and require calibration after field, street, fire, heritage, accessibility, and ownership review.

Dazhongsi 100m Public Acceptance Street: governance made walkable

06 / 100M PUBLIC ACCEPTANCE STREET

Before AI enters the street, it must pass public acceptance

A representative 100-metre prototype at Dazhongsi: visible · explainable · supported · reversible

One street turns governance clauses into a walkable civic experience

BASIC ACCESS

no phone, account or face gate

HUMAN FALLBACK

target ≤ 30 seconds

PUBLIC ACCEPTANCE

100% human-final high-impact outputs

FAILURE CAN EXIT

any red-line failure pauses pilot

Walking, cycling, and blue-green spine: six conditional segments

04 / INTELLIGENCE IN COMMON · PASS CITY

One public spine, three east-west stitches, six conditional sections

MOBILITY · BLUE-GREEN · HERITAGE · SERVICE · AI GOVERNANCE IN ONE SECTION

SIX CONDITIONS — NOT SIX ENGINEERING ALIGNMENTS

- 06 RIVER-GARDEN SAFETY EDGE
- 05 R&D CAMPUS CROSS-STITCH
- 04 CAMPUS + COMMUNITY COMMONS
- 03 HERITAGE READING + SLOW PATH
- 02 GROUND-LEVEL ROAD STITCH
- 01 DAZHONGSI STATION LIVING ROOM

SECTION A | HERITAGE-COMMONS SPINE

BASIC MOVEMENT IS PERMANENT; AI OCCUPIES ONLY A REVERSIBLE SERVICE BAND

SECTION B | EAST-WEST GROUND STITCH

NO PREJUDGED BRIDGE/TUNNEL: FIRST PROVE CONTINUITY, VISIBILITY, AND STAFFED HANDOVER

THREE NETWORKS AI MAY NEVER BREAK: 01 ORDINARY MOVEMENT · 02 BLUE-GREEN SPONGE · 03 RAILWAY MEMORY. IF AI FAILS, REMOVE AI—NOT THE CITY.

90-day tri-area public-acceptance circuit

09 / 90-DAY TRI-AREA PUBLIC ACCEPTANCE CIRCUIT

THREE AREAS START TOGETHER AND QUALIFY INDEPENDENTLY; ONE FAILURE CANNOT BE OFFSET

Not a construction schedule: ordinary baseline, human-led offline rehearsal, then time-limited public acceptance

CONCEPT DESIGN / PROVISIONAL GEOMETRY / SYNTHETIC SCENES ARE NOT SITE PHOTOS / SUBJECT TO OFFICIAL DATA, FIELDWORK AND PROFESSIONAL REVIEW

INTELLIGENCE IN COMMON / v3.0

Zero-network tabletop: 12 positive and 12 blocked paths

08 / READ-ONLY ACCEPTANCE TABLETOP

24 SYNTHETIC PATHS: PROVING THAT RED LINES ACTUALLY BLOCK

Zero-network, zero-write, not fieldwork, and not performance evaluation; it validates only civic admission logic

12/12 SCENARIO PASSPORTS		PURPOSE	OWNER	TAKEOVER	EXIT	RED LINES	
S01	rights						TIME-LIMITED ACCEPTANCE
S02	safety						TIME-LIMITED ACCEPTANCE
S03	safety						TIME-LIMITED ACCEPTANCE
S04	safety						TIME-LIMITED ACCEPTANCE
S05	mobility						TIME-LIMITED ACCEPTANCE
S06	inclusion						TIME-LIMITED ACCEPTANCE
S07	heritage						TIME-LIMITED ACCEPTANCE
S08	service						TIME-LIMITED ACCEPTANCE
S09	talent						TIME-LIMITED ACCEPTANCE
S10	energy						TIME-LIMITED ACCEPTANCE
S11	appeal						TIME-LIMITED ACCEPTANCE
S12	international						TIME-LIMITED ACCEPTANCE

NEGATIVE PATHS / N01–N12

- missing purpose
- missing owner
- missing takeover drill
- missing exit drill
- red-line failure

12 / 12 BLOCKED -> RESTORE NO-AI BASELINE

RUNNER OUTPUT

RESULT	PASS
MODE	read-only / zero-network
TESTS	24 / 24
BLOCKED NEGATIVE PATHS	12 / 12
FIELD PERFORMANCE	null
DEPLOYMENT	not authorized / not run
A unit test of the civic admission contract, not field acceptance or system-performance proof.	

Metrics and evidence: not only area, but who can stop AI

05 / INTELLIGENCE IN COMMON · PASS CITY

PASS is not a slogan: four conditions, ninety days, one accountable owner

EVIDENCE · ACCOUNTABILITY · COST BAND · STOP THRESHOLD · UNKNOWNNS ON ONE BOARD

PURPOSE VISIBLE
purpose · data · expiry

OWNER NAMED
single A · human final

STAFFED HANDOVER
ordinary route · drill

STOP-SAFE
stop · appeal · restore

NO PASS = NO AI

90-DAY INDEPENDENT TRI-AREA ADMISSION

0–30
NO AI LIVE
baseline · accessible walk · owner/data register

31–60
HUMAN-LED
reversible kit · offline simulation · stop/handover drill

61–90
TIME-LIMITED
daily review · weekly acceptance · adapt/exit

ONE SITE FAILS > PAUSE THAT SITE; NO AVERAGE MAY HIDE HARM.

ACCOUNTABILITY + COST + PROCUREMENT

A
site operator; single accountable owner

R
staffed service / access / safety / data / legal

C
residents / older + disabled users / evaluator

L1
operations + furniture + signs

L2
temporary structure + local system

BUY
open interface · minimization · no lock-in · exit

SIX PRE-ACTIVATION RED LINES | SELF-IMPOSED TARGETS, NOT CURRENT PERFORMANCE

100%
owner / notice / risk / stop drill

100%
human-final high-impact outputs

0
phone/account/face gates for basic access

≤30s
staffed handover target

1d / 5d
appeal acknowledge / target response

0
serious safety incidents target

KNOWN: PUBLIC SITE FACTS + PACKAGE TOPOLOGY | UNKNOWN: OFFICIAL REDLINE, CONTROLS, OWNERSHIP, HERITAGE, TRAFFIC ENGINEERING, UTILITIES > NO LEAP BEFORE G0/G1

CONCEPT URBAN DESIGN · PROVISIONAL BOUNDARY · NOT ENGINEERING / APPROVAL · SUBJECT TO FIELD + OFFICIAL DATA

TANGCHENG x CODEX · v3.1 · 2026-08-12

CONCEPTUAL RECOMMENDATION · PROVISIONAL BOUNDARY · NOT A SITE PHOTO OR ENGINEERING PLAN · SUBJECT TO OFFICIAL DATA AND PROFESSIONAL REVIEW

INTELLIGENCE IN COMMON · PASS CITY · v3.1 · A3 / 11

Twelve passports: every AI scenario has accountability, baseline, and exit

PURPOSE VISIBLE

Purpose, data, accountability, and opening hours are legible before activation.

OWNER NAMED

Each scenario has one A; a named person makes final high-impact decisions.

TAKEOVER REHEARSED

Ordinary staffed route, emergency stop, and no-AI baseline are rehearsed.

EXIT REHEARSED

Appeal, deletion, correction, rollback, and restoration leave evidence.

RED LINES DO NOT AVERAGE

One failure blocks admission; averages cannot conceal harm.

PASSPORT IS NOT A PERMIT

Opening is time-limited, evidence expires, and deployment remains unauthorized.

Award ambition without overclaiming: keep legal scope and unknowns visible

PROVISIONAL BOUNDARIES

SITE_BOUNDARY and all KEY_AREA polygons support generation, display, and content review only; recalculate after official polygons arrive.

GENERATIVE AI

Cited only for public generated-content services within scope; one-day/five-day timings are project targets, not statutory numbers.

BARRIER-FREE LAW

Article 39 remains limited to its enumerated medical, social-security, financial, and utility-payment settings.

OLDER-ADULT POLICY

State Council document No.45/2020 is a parallel-service reference; 2020–2022 milestones are not a live 2026 duty.

THREE KEY-AREA PROTOTYPES

The 3.0m clear route and other dimensions are concept targets, not surveyed sections, parcels, redlines, or engineering standards.

AI IMAGERY + TABLETOP

All three scenes are synthetic and non-site; 24 paths prove rule logic only, never field performance.
