

BASELINE FIRST. AI MUST PROVE ITSELF.

ONE SPINE · THREE STATIONS · TWO WINGS

For the same civic task, a complete public baseline works first; AI enters only

- 01 Baseline independently complete
- 02 Same task and users
- 03 No equity or reliability regression
- 04 Data, energy and labour recordable
- 05 Owner, stop and restore defined

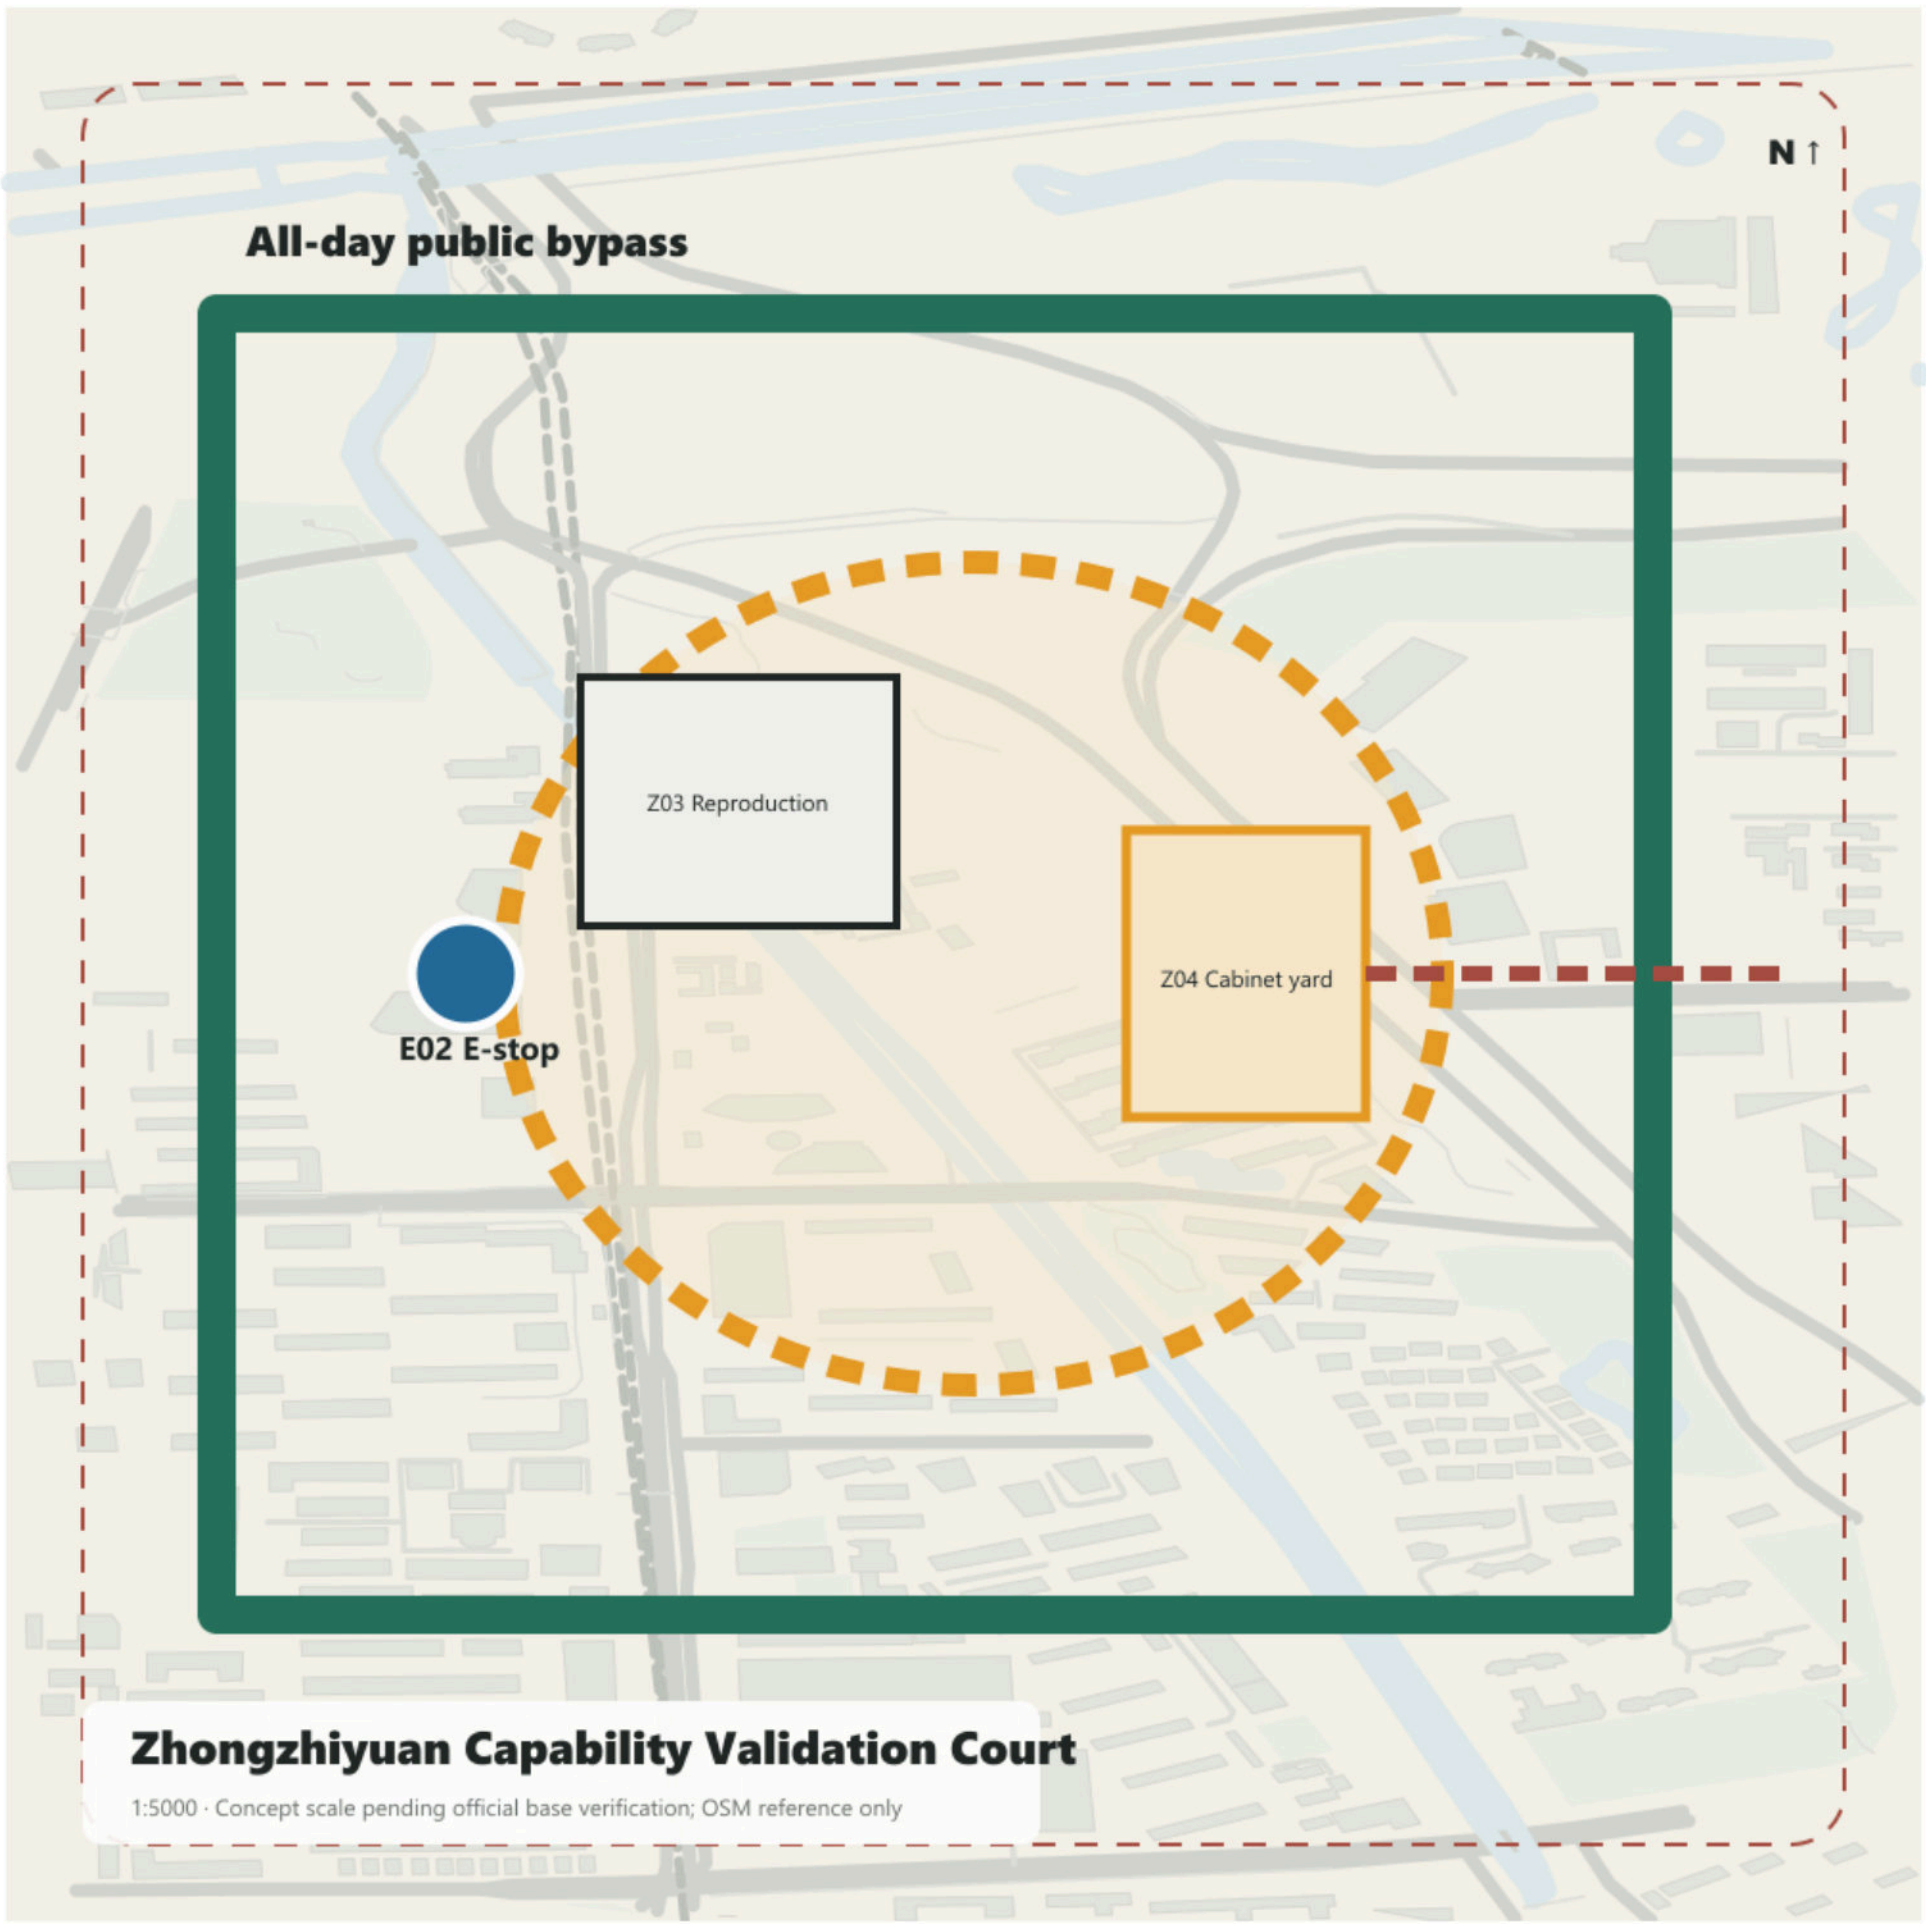

KNOWN · 12 / 3 / 6 / 12 / 12 / 12

scenarios / tests / profiles / baselines / human reviews / stop rules

UNKNOWN · footfall, energy, efficiency, investment, satisfaction, intensity

THREE UNMISTAKABLE SPATIAL PROTOTYPES

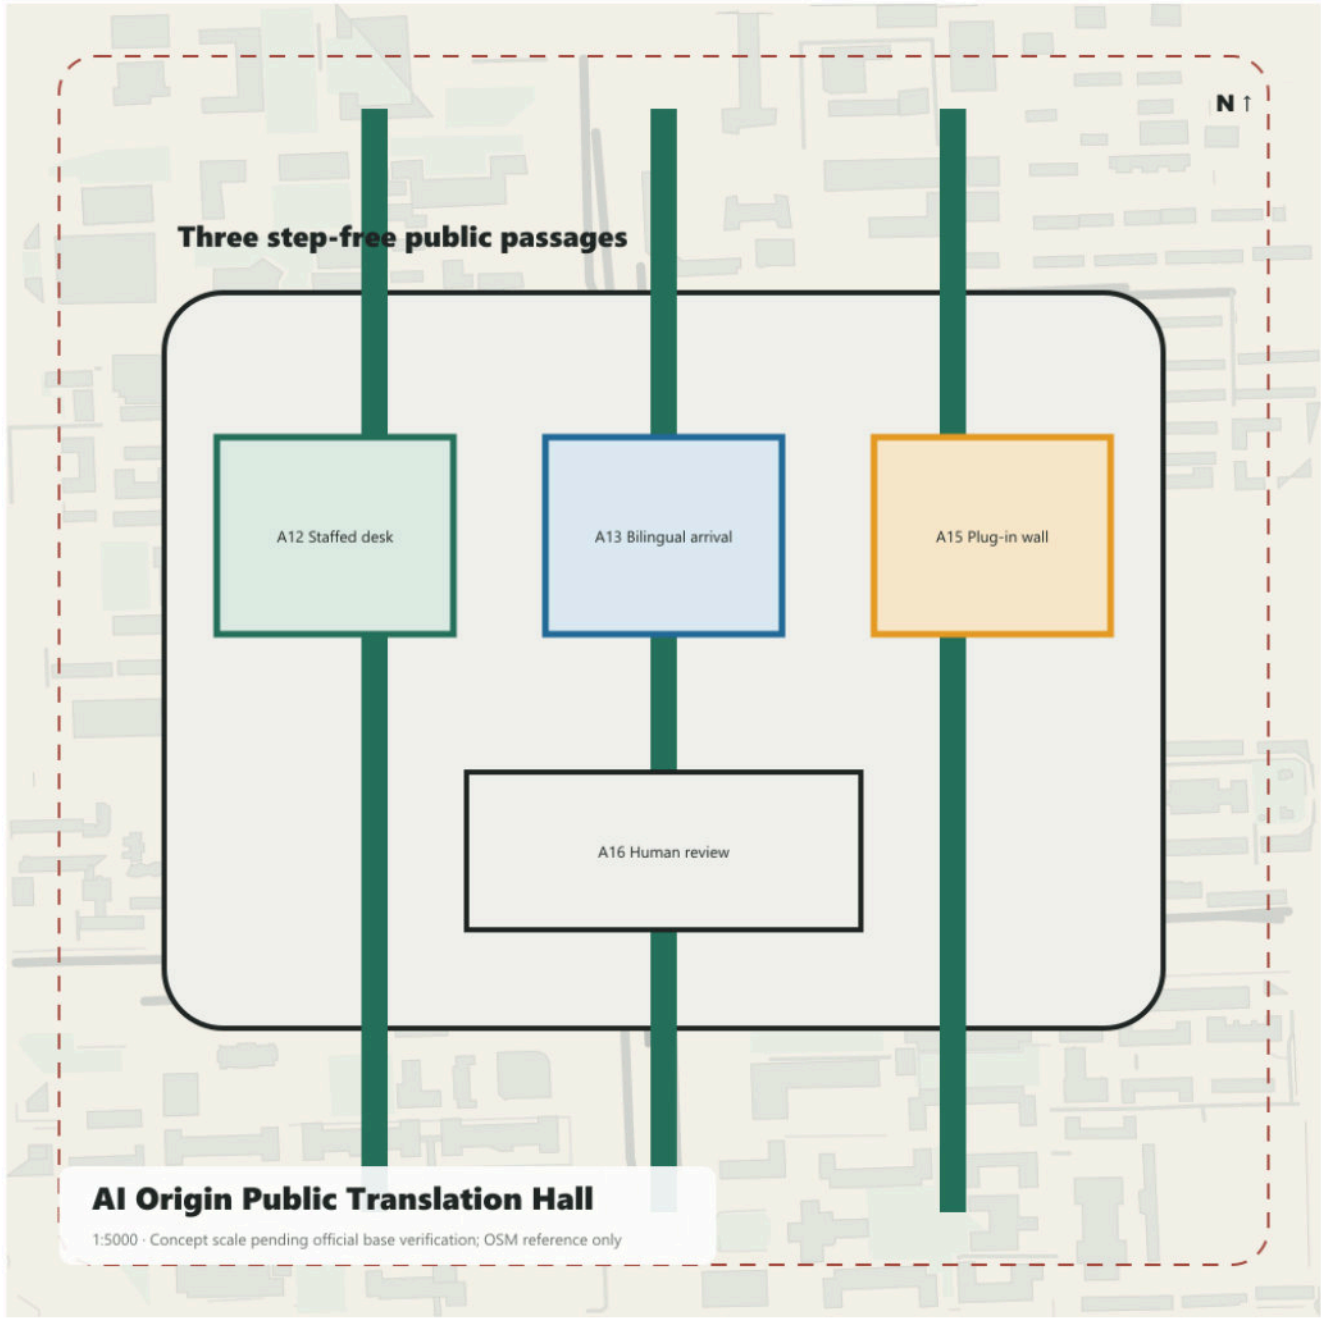

01 ZHONGZHIYUAN · LOOP COURT

Complete bypass / enclosed loop / reproduction / cabinet yard / E-stop / removal

1:5000 · concept scale; verify against official base

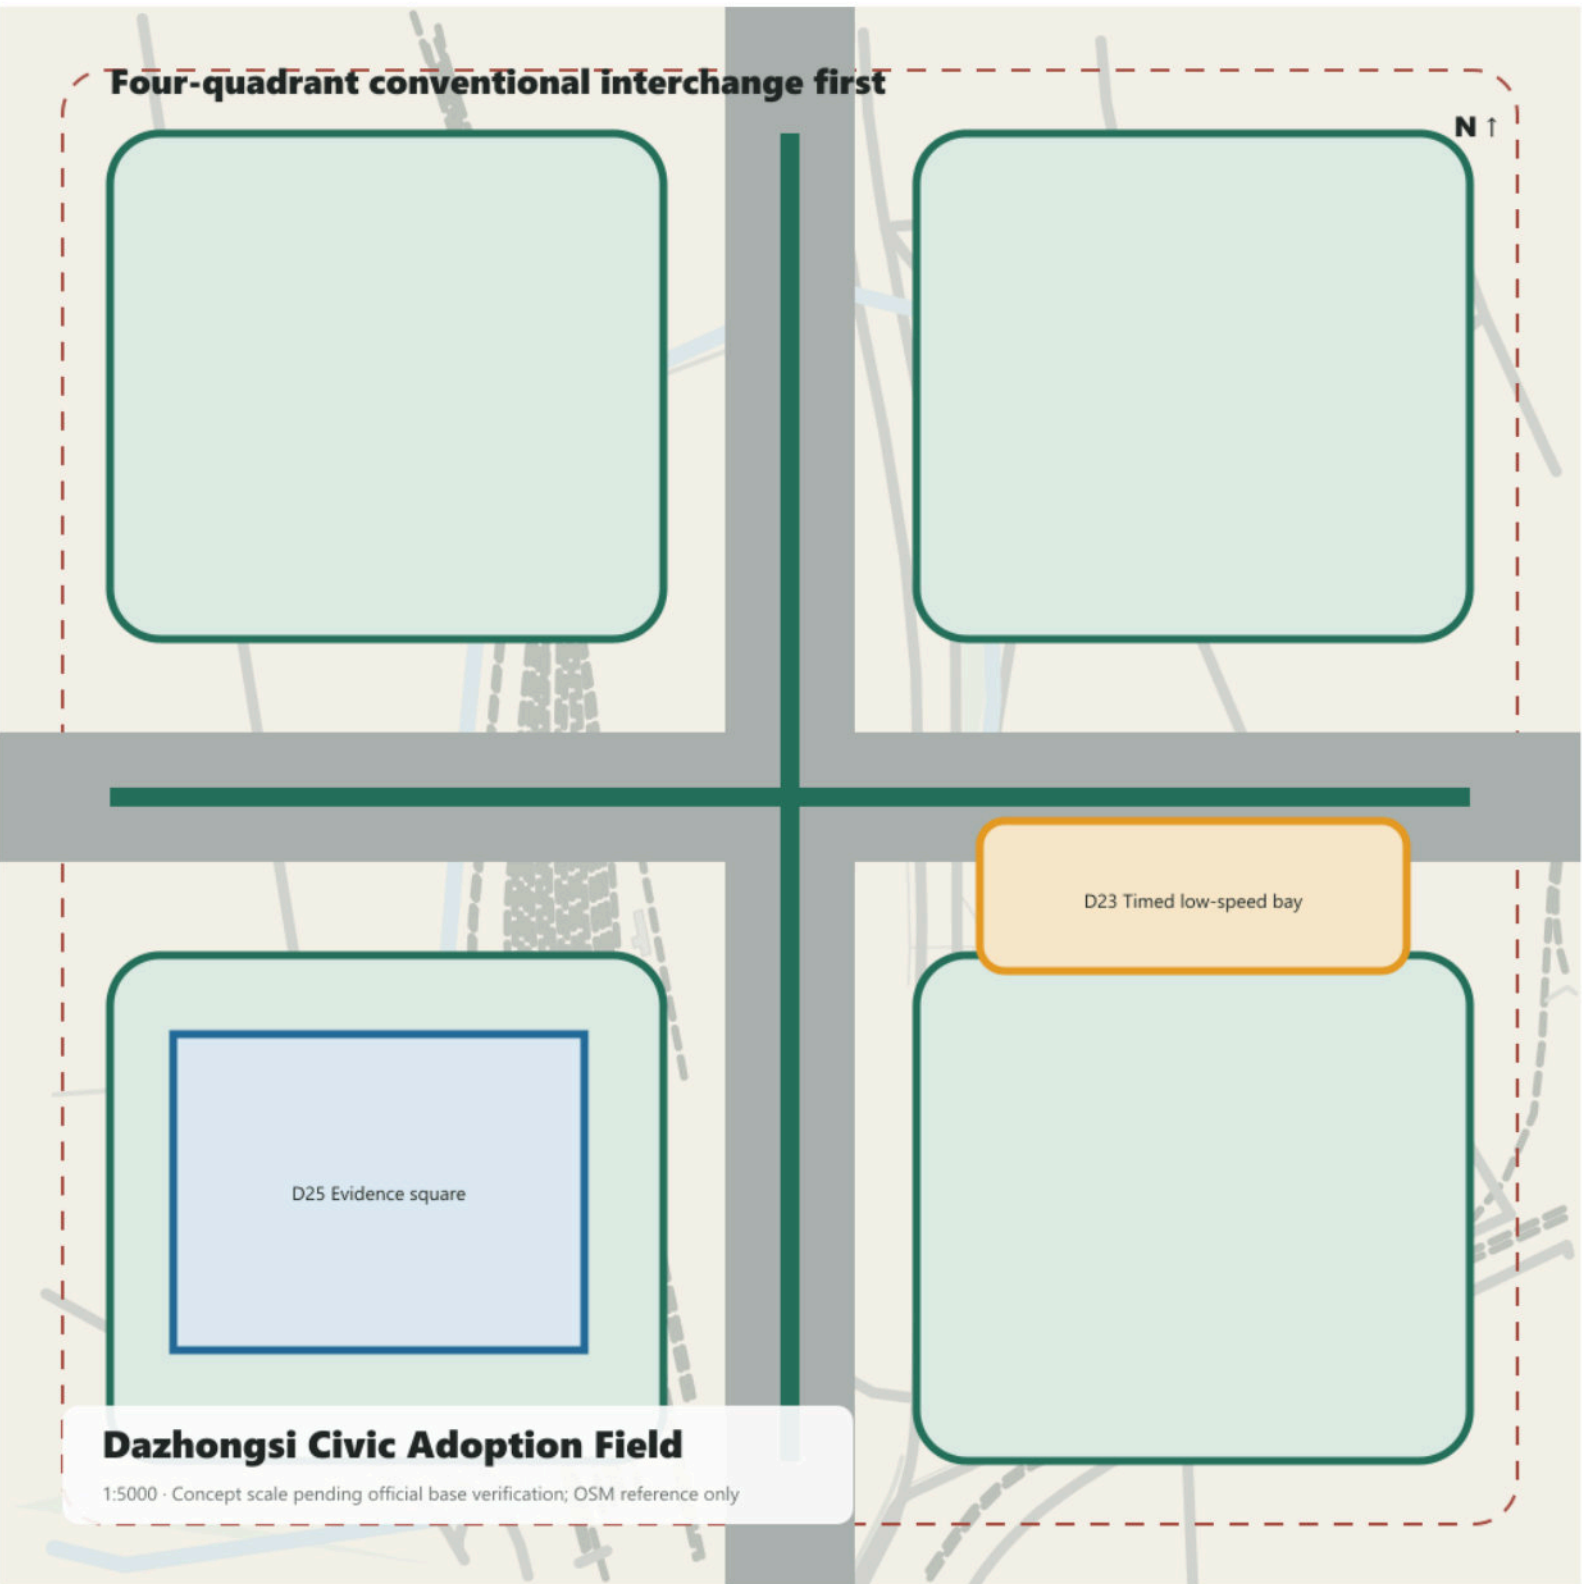

02 AI ORIGIN · POROUS HALL

Three passages / staffed desk / bilingual arrival / plug-in wall

1:5000 · concept scale; verify against official base

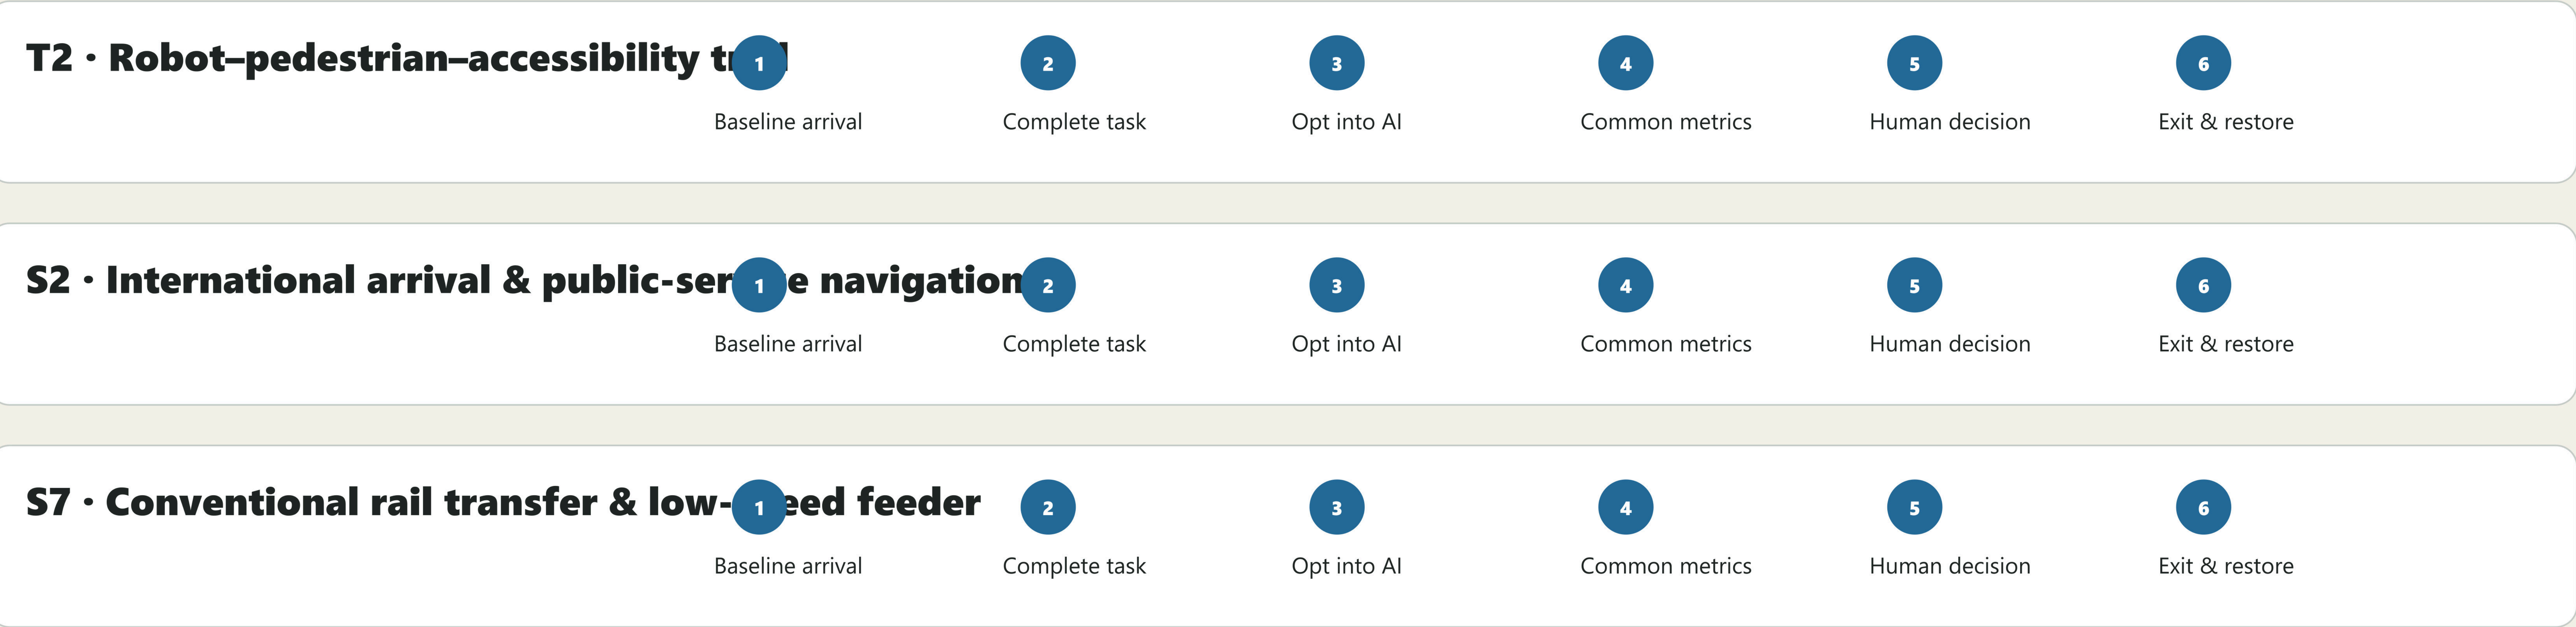

03 DAZHONGSI · TRANSIT FIELD

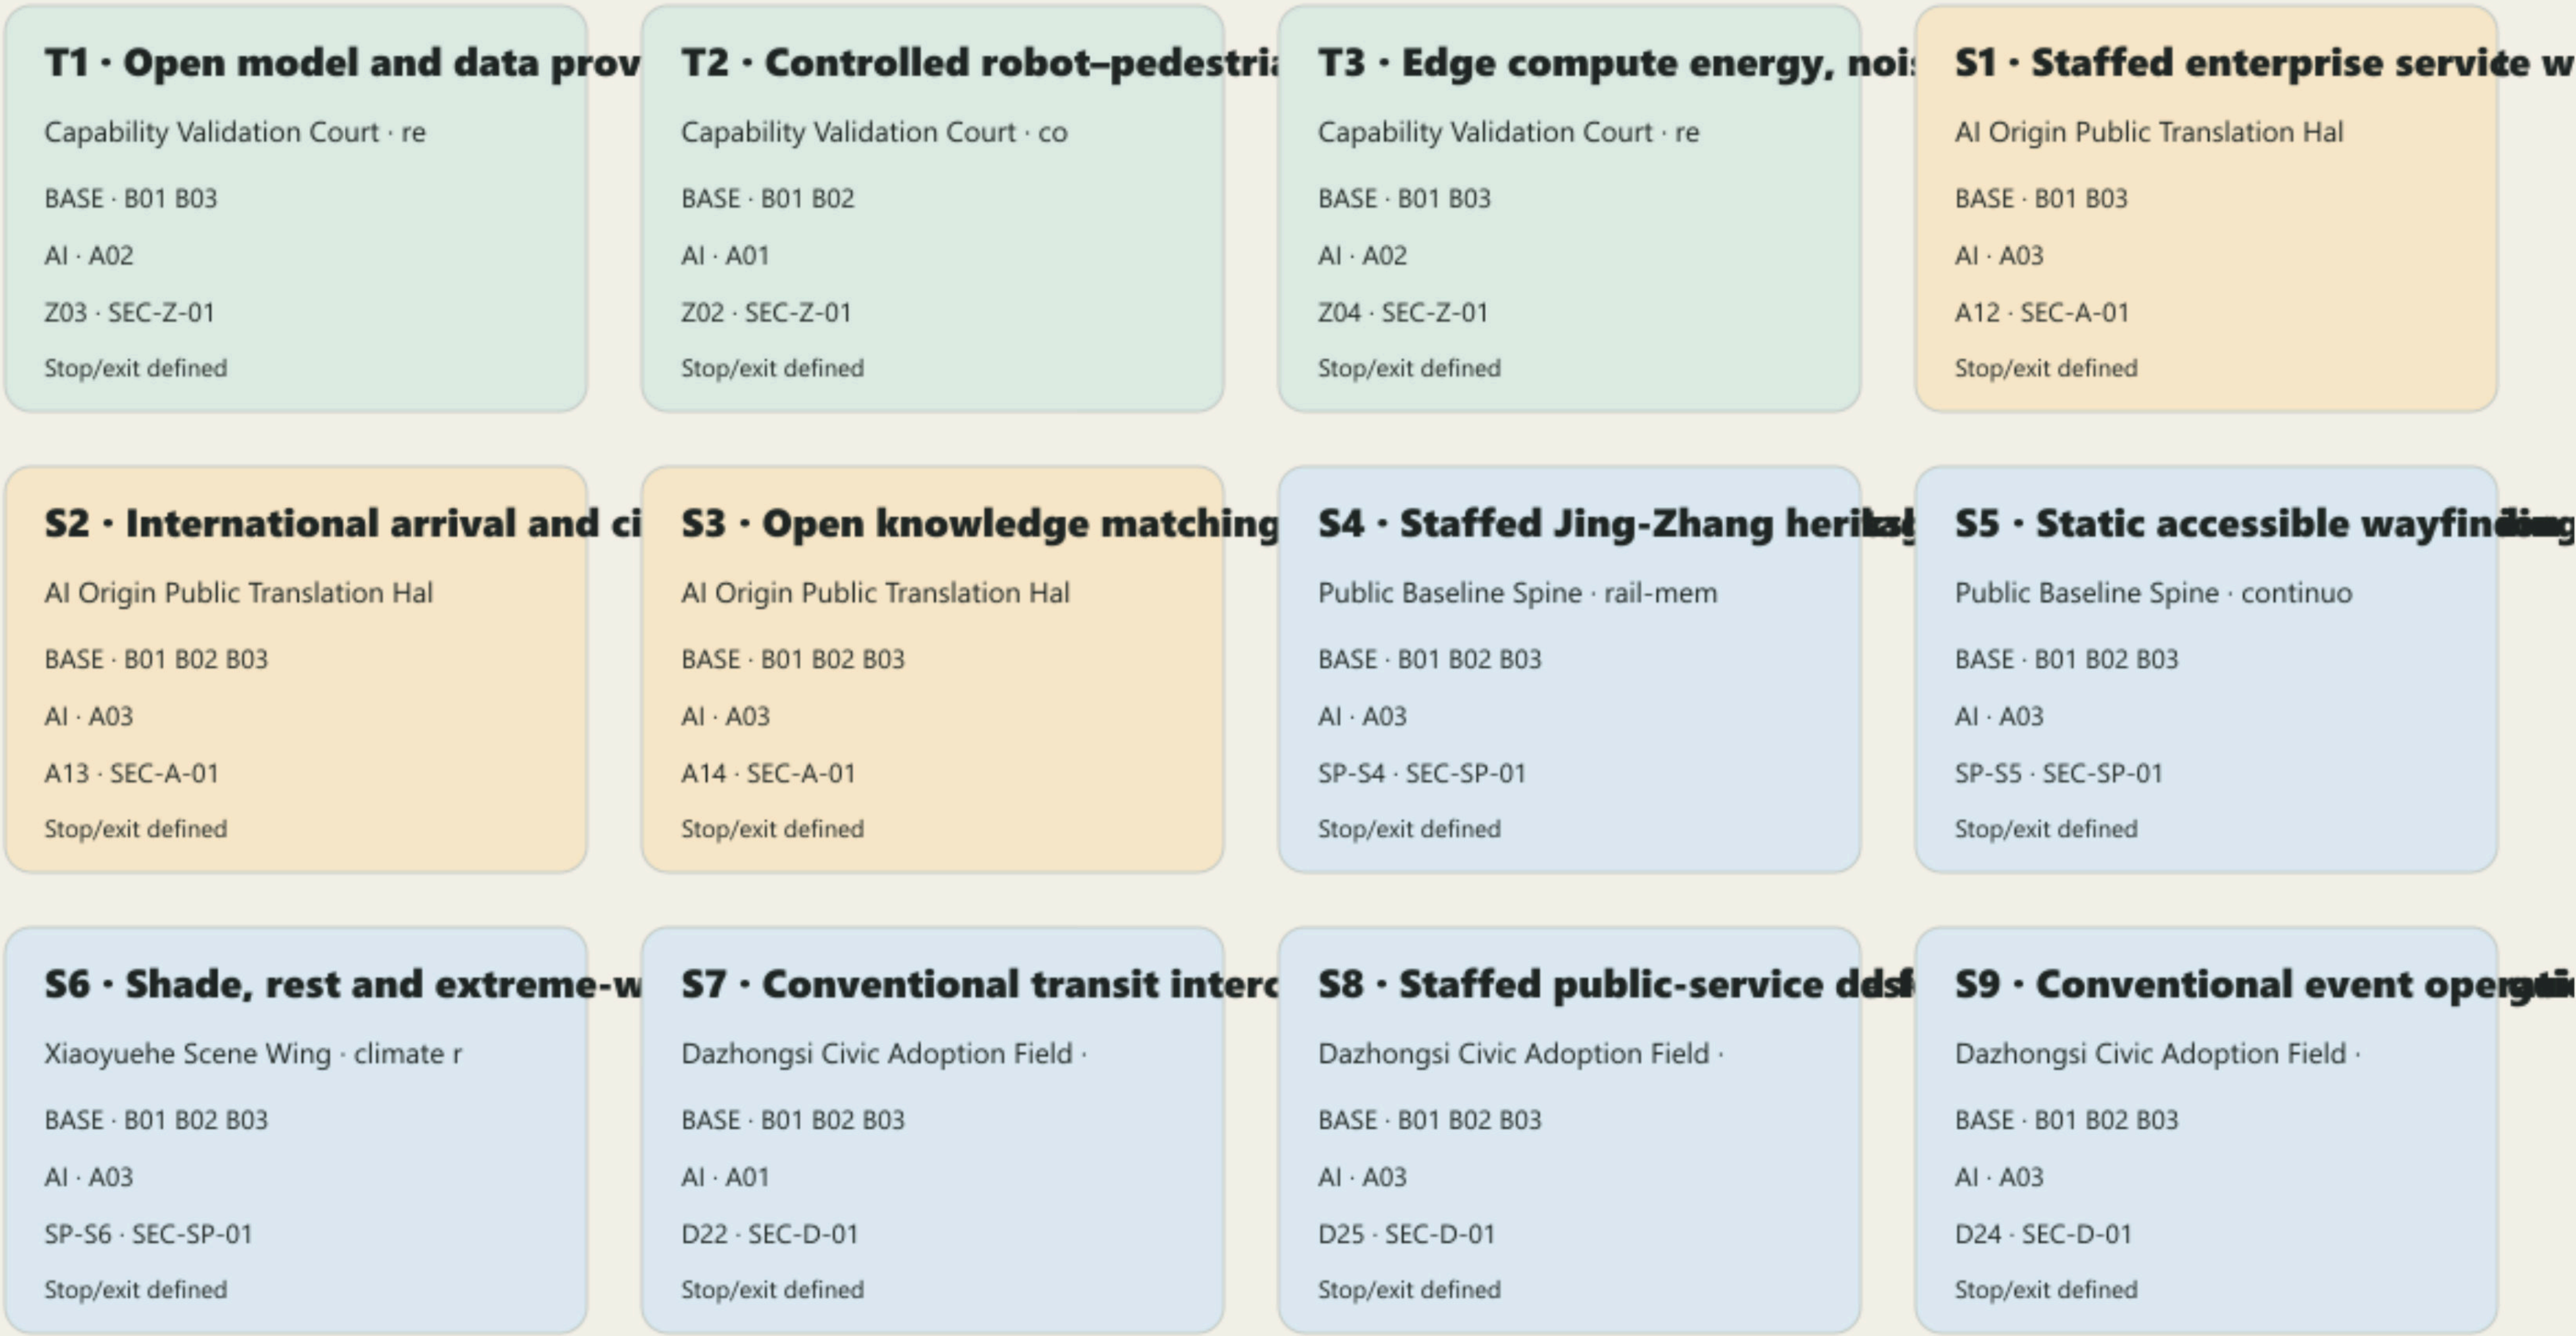

Four-quadrant walk / conventional transit / timed bay / evacuation / evidence

1:5000 · concept scale; verify against official base

THREE PAIRED JOURNEYS DRAW ADOPTION AND EXIT INTO

12 scenarios: every node has an address and an exit asset

0–36 MONTH DELIVERY & ASSET LOOP
